

HARVARD RECOMMENDS C&D PROCESSING FACILITIES

March 2011

Harvard University is recommending that the Project Managers, Architects and Contractors utilize the following Construction & Demolition (C&D) processing facilities for the off-site management of source separated and co-mingled C&D debris.

These facilities are currently permitted and in compliance with Massachusetts Solid Waste Management regulations, actively process C&D materials to maximize separation and reuse of materials, and meet the criteria and standards set forth by Harvard University for the off-site management of C&D debris.

Harvard University Approved C&D Processing Facilities

Name/Address	Contact Person	Contact Information
Devens Recycling Center 45 Independence Drive, Devens, MA	Judy Cohen	978.772.6500 jcohen@devensrecycling.com
E.L. Harvey 68 Hopkinton Rd., Westborough, MA	Tony Cerquiera	781.341.9920 tcerquiera@elharvey.com
Champion City (Stoughton Recycling) 100 Page Street, Stoughton, MA	Angelo Cerra	781.341.9920 acerra@cdrecycle.com
Thomson Brothers Industries 210 Holt Road, No. Andover, MA	Bill Thomson	978.686.8604 billthomson@northsidecarting.com

Single-source Material Processing Facilities

Name/Address Material Processing Facility	Contact Person	Type of Material	Contact Information
Gypsum Recycling 135 Fawcett Street, Cambridge, MA	Patrick Manning	Gypsum	617-596-4297 pm@gypsumrecycling.us
Schnitzer Steel Industries (Prolerizer) 69 Rover St., Everett, MA	Keri Fitzpatrick	Ferrous and Non-Ferrous Metals	617-389-0173

3/2011 - Harvard EH&S maintains and will continually update this database as additional facilities are evaluated.
